Xchange 2008 is part of the Wonderware global conference series being held in 20 locations around the world. Held bi-annually to showcase the latest innovative technologies and products, Xchange 2008 is brought to you by world class industry vendors and manufacturing industry experts. Experts such as Stephen Radley, Chief Economist from the EEF - the manufacturers organisation and Simon Pollard, Vice President of SAP Manufacturing Operations EMEA. Click here for an insight to the ['Burning Issues'](#) that will be addressed at Xchange2008.

Keynote Addresses: informative, insightful, and innovative
Breakout Sessions: business, technology, applications
Hands-on Workshops: practical & technical hands-on sessions

Capley Marker will be exhibiting in the Expo area on stand 8 and presenting on Wednesday morning on "Effective Reporting—Plant Performance Management." Plant Performance can be based around OEE, or analysis and management of the seven major losses or combinations of these with the framework of TPM. This session looks at a major manufacturer who significantly improved productivity by implementing a Plant Performance solution from Wonderware. For further information click onto www.xchange.uk.com/agenda.
